Highlights

DualCut Technology

Advanced DualCut Technology combines a double-sharpened cutting element with low-friction engineering. The innovative cutting element is designed to cut hair sharper and faster than predecessor.

Rounded tips

The cutting element has specially rounded tips to prevent skin irritations and ensure a smooth, comfortable trim.

DualCut precision trimmer

The 21mm (13/16") precision trimmer helps you trim & shape your facial style (stubble, goatee, sideburns, neckline or mustache) with high control and visibility.

3 precision combs

Maintain the uniform length of your stubble, goatee and mustache with the 1mm, 3mm, and 5mm (1/32", 1/8" and 3/16") click-on precision combs.

Skin-friendly detail shaver

Define the edges of your style with the click-on 21mm (13/16") detail shaver. The detail foil shaver is designed to fit into tight spaces with more precision than a blade, so nothing gets in the way of your perfect style.

Water resistant

The trimmer and the combs are Water resistant and easy to clean under the faucet after each use.

AA battery included

Your trimmer is ready to use straight away.

Soft rubber grip

The soft-touch rubber grip gives you the best hold, even when wet, for better control when operating your trimmer.

Brush

The brush keeps the blade clean after use.

No oil needed, ever

No need to oil ever, for easy maintenance.
